RE: SATAjet 3000 RP and SATAjet 3000 RP Digital spray guns

Dear Mr. Bunk:

The Department is in receipt of your request for a determination that the SATAjet 3000 RP and SATAjet 3000 RP Digital spray gun achieves emission reductions equivalent to high volume low pressure (HVLP) or electrostatic spray. Based on information you provided, the SATAjet 3000 RP and SATAjet 3000 RP Digital spray gun is considered to achieve equivalent emission reductions under Regulation 24, Section 11, paragraph (c)(1)(v). This approval is based on the following conditions:

1. SATA Farbspritztechnik GmbH & Co. KG shall supply with each SATAjet 3000 RP and SATAjet 3000 RP Digital spray gun written notification that the maximum air pressure supplied to the spray gun shall not exceed 35 PSIG.
2. SATA Farbspritztechnik GmbH & Co. KG shall supply each SATAjet 3000 RP and SATAjet 3000 RP Digital spray gun a gun-mounted pressure gauge clearly identifying the maximum allowable inlet air pressure of 35 PSIG, and a gun mounted air pressure regulating device.
3. SATA Farbspritztechnik GmbH & Co. KG shall supply with each SATAjet 3000 RP and 3000 SATAjet RP Digital spray gun written notification that the gun mounted pressure gauge and air pressure regulating device shall be attached to the spray gun, and be in good working condition, whenever the spray gun is in use.
4. This approval is only valid for the SATAjet 3000 RP and SATAjet 3000 RP Digital spray gun.

If you have any questions regarding this determination, please contact Deanna Morozowich at (302) 739-9402 in the Dover office.

Sincerely,

Philip A. Wheeler
 Acting Program Manager
